國際幼兒園 INTERNATIONAL PRESCHOOL

## ABOUT THE AUTHOR

Hello I am Damien La Greca, an Australian born, living in Kawasaki for the last ten years. I am the father of three wonderful children under the age of six. My wife Yukiko (who is native Japanese) and I decided that one of our businesses would be Creative Kids International Preschool, because we

knew there are other expats who have the need and desire to attend an English based international school. We understood that we wanted the very best curriculum for our children and for them to learn in a fun safe purpose built environment. Because a good curriculum is one of the main factors in a successful school system, which we chose to use the world's leading early childhood education program. (International Preschool Curriculum, or IPC) The academic team has stoped at no bars in delivering what I call the best curriculum I have ever seen for young children. With our passion we have become one of the foundation pillars of International Preschools here in Kawasaki, Japan.

## International Preschool Introduction

Quality education is a prerequisite for achieving academic and career goals. The best way to support your children's goals as a loving and caring parent is to support their quest for the best education that will give them the best training in preparation for their future. Children need to be given a rock-solid academic foundation to build on in order to facilitate the achievement of their goals and realize their dreams in the future.

Sadly, quality education is more difficult to come by despite the increasing number of schools springing up everywhere around you. While some schools cannot boast of good facilities to aid children training, others are not staffed by experienced and qualified teachers that will impart knowledge in the kids. Therefore, how can you give your children the best education that will prepare them for their careers amidst these deficiencies? You don't need to look further; a visit to Creative Kids International Preschool will convince you to give your children the best foundation through this school.

Before I give you some reasons why you should choose the school for your children, let me tell you what a preschool is and a bit about Creative Kids International Preschool. This will prepare your mind for the reasons why the school should be your preferred choice for your children.

## About Creative Kids International Preschool

Creative Kids International Preschool is one of the accredited preschools by IPC. The school was founded by Damien La Greca to give preschool kids access to the best school that will build them up for the future and help them to achieve academic excellence through qualitative teaching. The school is located in Kawasaki, a bubbling city in Japan and has over the years contributed to the development of many Japanese children.

The school is located at 1-18-24 Kyomachi Kawasaki-ku Kawasaki city 210-0848 Japan. Whether you are an expatriate or a Japanese citizen, the school is very accessible due to its strategic location. It also has school buses with the right security system to ensure the safety of your children to prevent them from potential danger.

### Some Landmarks around the school include:

- Fujiya Restaurant, Tsutaya, Tantanmen.
- A train station near Kawasaki JR Station.
- A local bus stop at Kyoumachi Loop at Sannotsuji.

This shows that the school is situated in an environment that makes access to the school and your children very easy. Without much stress, your children can get to and from school on a daily basis. But, then, what is a preschool?

# What is a Preschool?

A preschool is otherwise known as a kindergarten or nursery school. It is a school established to offer early childhood education to young children between the ages of two to seven. The objective of establishing a preschool is to offer young children basic education before they are old enough to be eligible for primary school education.

Such a preschool may be owned by private individuals or be government-run. Regardless of who runs it, the goal is the same: early childhood education for pre-primary school kids.

Creative Kids was established to offer pre-primary school education to kids in Kawasaki, as a preliminary to having compulsory primary school education later when they are qualified for that. This brings us to the question again: why should you choose Creative Kids International Preschool for your kids?

# 10 Reasons to choose CreativeKids International Preschool

Considering the fact that Kawasaki boasts of a lot of schools, why should you consider choosing the Creative Kids International Preschool over other schools? I will give you 10 reasons why that will be a wise decision for you:

## 1 To Fill a Major Need

Due to national evolution in recent years, there is a pressure on citizens of Kawasaki to add English language to their means of communication. According to the founder of the school, Mr. Damien La Greca, "With the Olympic Games, the Transpacific Trade Partnership, and global industrialization in general, the demand is great for those in Kawasaki's growing industries to speak English." The objective of such move is to prepare the children for life outside their immediate community and be at par with their mates from all parts of the world.

Therefore, Creative Kids International Preschool offers you a good platform to teach your children the need to speak this international lingua franca and how to learn it effectively without losing touch with their local languages. The ability to speak English language will increase the opportunities available to your children to work and live anywhere in the world without the fear of being inhibited by a language barrier. That will increase their chances of achieving their academic and career goals faster than you can imagine.

The global community has great opportunities that your kids can take advantage of. So, give them the right tool (the ability to communicate in English as well as write and read the language) and you will be amazed at where that will lead them in the future. The school is equipped with the right tools, well-designed facilities, and staffed with highly-trained and competent staff, perfect tools that will aid your children's learning so that they can easily make the needed progress towards adding the International Language to their local languages. Let Creative Kids International Preschool help your children fill that need and you will be thankful for making that right decision. I am sure you won't deny your children a good start to their education and life.

# 10 Reasons to choose CreativeKids International Preschool

## 2 IPC-Approved

Creative Kids International Preschool is an IPC approved preschool. Of what significance is IPC approval to the development of your children? A school that is approved by IPC is a better-qualified school to give your kids a good start compared to other schools without IPC approval. The International Preschool Curriculum (IPC) came into existence for a purpose to ensure that early childhood education is strengthened and harmonized throughout the world, with the objective of laying a good educational foundation for children of pre-primary school ages.

The association, which is the world's leader in international childhood education, directly supervises and coordinates learners, governments, schools, and parents to ensure that the best education is given to students.

Although the organization has its headquarters in the US, it works with different governments in a good number of countries across the globe to set the right standard of education for their students through the best curriculum. The organization is out to ensure that no child is denied access to quality education through poorly designed or implemented curriculum. Therefore, it is a proof of quality education for Creative Kids International Preschool to be approved by this body. It shows that the school has met international education standards and that will be valuable in giving your children a good-quality education that will work in support of their dreams and aspirations.

It is imperative, therefore, to let your children be trained according to the high-standard that is available in other parts of the world. That will put him in the right frame of mind and equipped with the right tools to compete with his or her contemporaries from all walks of life.

# 10 Reasons to choose CreativeKids International Preschool

## 3 Conducive Learning Environment

Learning becomes fun for children when they are taught in an environment that is conducive to learning. The attractiveness of the environment may make learning appeal to them while the same cannot be said if they find their learning environment unattractive, boring, or non-informative enough.

Creative Kids International Preschool is aware of the impact of environment on the learning desire of young children and has the structure and facilities to make learning fun and appealing for your children. Some of these facilities include:

- State-of-the-art security system.
- 5 local parks.
- Parent Teacher software.
- Emergency food and water.
- School buses with security cameras and GPS.
- Gymnastics.
- Optional swimming lessons.
- Nurses on site.
- IPC library.
- Qualified staff.
- Emergency power system.

# 10 Reasons to choose CreativeKids International Preschool

## Social Building

It is necessary to make these facilities available for the students because the school has the objective of bringing “a qualified yet affordable international preschool for the Kawasaki youth.” To see that dream come true, Creative Kids International Preschool was created with the tools needed for achieving such dream, including awesome facilities that will make learning easier and more enjoyable for the kids.

In addition to that, the implementation of a security system and GPS-fitted school buses guarantees the safety of your children during transit from and to school. While your kids are trained under the best environment, their security is also well-handled because the security of your children is a priority of the school management. The unique learning environment with the best facilities indicates that Creative Kids International Preschool is a child-friendly learning environment for your children.

## 10 Reasons to choose Creative Kids International Preschool

### 4 Extra-Curricular Activities

While the school management focuses on developing the academic skills of the children, the school also tries to balance it by helping them develop their other skills too. For instance, they are helped to become talented sportsmen and women, take some music lessons, and engage in other activities that will lead to their overall development. In order for the students to benefit from these activities, the school has these facilities:

- Play parks, toys, dress-ups, and others.
- Music and song lessons.
- Some other activities such as hip-hop, gymnastics, karate, and the rest.
- Interactions and observations
- Stories and poetry.

In all, your kids will become an all-rounder, instead of being trained to grow up without a life outside his or her education and career. They may grow up to become international celebrities with their developed skills in music, plays, and others that may dig up the hidden skills in them. This is a golden opportunity you can't afford to deprive your children of taking advantage of.

# 10 Reasons to choose CreativeKids International Preschool

## 5 A Wide Range of Learning

In order to ensure that the kids are well-trained to realize their dreams, a wide range of learning techniques are adopted for teaching them in line with the directives of IPC. According to IPC, students should be taken through series of learning curves. In line with this, Creative Kids take their students through some learning areas such as:

- Socio-emotional skills.
- Creative and Visual Arts.
- Numeracy.
- Fine and Gross Motor Skills.
- Language Arts.
- Sciences.

These learning areas are designed to give each student an all-round training that will be useful in pursuing their careers. For instance, the Language Arts is primarily designed to improve their communication skills, necessary skills that will be instrumental to making them well-equipped for future challenges in the global labour market. Their ability to effectively use their Numeracy skills will prepare those who will pursue a career in numeracy-related disciplines such as Accounting and other courses. What about Sciences? The foundation laid here will be the decisive force in the decision of some students to pursue their career in science. Apart from these career-related disciplines, we have the socio-emotional skills and Fine and Gross Motor skills to make sure that each student is conscious of his or her environment and have a good interpersonal relationship with others. While these skills are advantageous at home, they become more valuable when dealing with people from different racial and national backgrounds. The objective is to prepare them for such encounters in the future and comport themselves well without constituting themselves a nuisance in the global community.

Therefore, it is imperative that children are taken through these skills at a tender age so that they can grow up with the mindset that is well-prepared to deal with whatever challenges they may face in the future

# 10 Reasons to choose CreativeKids International Preschool

## 6 Wide Acceptance

Creative Kids International Preschool is one of the most recognized schools in Kawasaki. This is not achieved by chance. No. It is as a result of excellent results achieved through vigorous efforts directed towards giving Kawasaki youth the best education in line with the international learning and teaching standards as directed by IPC.

The result of a recent study shows that over 90% of schools have a strong believe that most community stakeholders and parents have a strong interest in schools with international training, an idea bought by Creative Kids without giving excuses. That is why the training suggested by the International Preschool Curriculum (IPC) is the standard followed strictly by the management of the school. No wonder, then, that a good number of parents accept Creative Kids as the best school to give their children the most valuable foundation with the potential to give their careers a boost. Since those parents made their decisions based on results, they can't be wrong. Therefore, you will be doing your children a great favour by enrolling them in the Preschool to be trained by professionals.

What is more, according to Damien La Greca, the Chief Executive Officer of the school, the objective is to give students opportunity to have the best and affordable school for training the Kawasaki youth. Give your children a chance to be prepared for the future today by a goal-oriented and vision-driven school that is widely recognized and accepted by most of the Kawasaki parents.

## 7 Free Trial

Perhaps due to your past experience, you may be reluctant to enroll your kids at an unfamiliar school. That's fine. It is an evidence of your concern for the welfare and academic excellence of your children. What, however, if you have the privilege of trying the school for free? Yes, will you take the advantage of a free trial to test the efficiency of the school? If yes, that is exactly what the management of the school offers prospective students: the opportunity to be taught for free for a couple of days or weeks. You can take advantage of this offer to give your children a trial at Creative Kids School. Don't forget, this is free and you have got nothing to lose. However, you have got a lot of things to learn. For instance, that will afford you the privilege to see Creative kids display their skills and showcase their expertise in the field of teaching and child care. Therefore, you are encouraged to visit the school, inspect the environment and facilities before enrolling your kids for free trial lessons. You will be surprised at the quality of the school, the professionalism of the teachers, and the state-of-the-art facilities that will give you and your children a memorable experience.

You are free to pay a visit to the school at 1-18-24 Kyomachi Kawasaki-ku Kawasaki city 210-0848 Japan if you want more information about this offer.

## 10 Reasons to choose Creative Kids International Preschool

### 8 Encouraging social media presence

In this internet age, the school is one of the few schools in Kawasaki that boast of an impressive social media presence. Regardless of your location in Kawasaki, you can follow the achievements of the school's on social media sites such as Facebook, Twitter, and Youtube. This is in addition to the school's official website. The social media is designed to give parents easy access to the events in the school and check on the school without leaving the comfort of their homes or offices. This is a proof of the transparency of the school and a desire to let parents learn as much as possible about the school.

For instance, the official website of the school contains some important sections such as the Mission, Vision, About Us, Contact Us, News & Events sections that are designed to make contact with the school easy in addition to other benefits that are mentioned above.

If you want to contact the school on social media or monitor their progress, you can use the links below:

**Facebook:** <https://www.facebook.com/CreativeKidsIntlPreschool/>

While you are still contemplating whether to have your children educated in the school, visit these sites and have your questions answered while your fears are allayed.

# 10 Reasons to choose CreativeKids International Preschool

## 9 Qualified Staff

To have a good foundation for your children, they need to be taught by qualified staff in a good school. While Creative Kids International Preschool boasts of impressive facilities, the school also has confidence in its professional teachers. They are well-trained and qualified to give your children quality education that will make their academic foundation the envy of others.

While there are some Japanese teachers on the school's staff list, some members of staff are of international descent too. These teachers are certified by College of Teaching and have gone through an extensive training that is targeted towards equipping them with the right knowledge and skills to turn their students into the best among their peers. If you decide to enroll your children at the school, rest assured that they will be guided, trained, and helped to have the foundation that only the best staff can lay. In addition to teaching them, be confident that your children will be well taken care of.

# 10 Reasons to choose CreativeKids International Preschool

## 10 Opportunity to start early

Creative Kids International Preschool affords you the opportunity to give your children an early education. Perhaps you are just passionate about giving your kids an edge over others; the school offers you the platform to give your children an early education that is both fun and upbuilding.

As a preschool, you can enroll any child between the ages of 6 months to 6 years to be given the right exposure to education before the child is old enough to start his or her primary school education.

If your work demands much of your time, you can also take the advantage of this school to relieve yourself of some pressure by giving your kids educational training at a tender age while you focus on parental training at home. What is more, the school is well-poised to help you out in this regard. From Monday to Friday within the hours of 7:00 am to 7:00 pm, the school is open to students within the given age. You can drop your kid when going to work and pick him or her up when returning from work. That is a great way to concentrate on your job without depriving your kids access to fundamental educational training.

As earlier pointed out, this is a great opportunity to start the education of your children without waiting until it is too late. And of course, you have the best tool at your disposal: Creative Kids International Preschool.

## Conclusion

While giving your children the right education may rank among some of your best priorities, choosing the best school for him or her may be difficult. If that is so, let Creative Kids International Preschool help you out in that regard.

One of the greatest gifts you can give your children is a rock-solid education foundation and that starts with enrolling them at Creative Kids School. The truth is, the earlier you lay the foundation, the better for your kids. You should enroll your children today because procrastinating will deny them a golden opportunity to be taught and trained by some of the best teachers in the country
